

CHI YUN SCHOOL Suspected Viral Infection in Dormitory

12 September, 2019

Dear Parents/Guardians :

We have reported to the Department of Health because there are several students who have fever in dormitory. Centre for Health Protection informed us that we need close monitoring in respect of infection prevention and control. Hence, we are performing a series of efficient procedures to avoid the situation getting worse in the coming future such as:

1. Observation room:
 - ◆ Close monitoring is provided for suspected to be infected case.
 - ◆ Cutleries and daily necessities need extra hygiene management.
2. Sanitation precautions consist of the followings:
 - ◆ Routine monitoring of Body Temperature
 - ◆ Clean and disinfect frequently touched surfaces, furniture, toys, utensils, toilet and floor by using appropriate disinfectant (1:49 diluted household bleach).
 - ◆ Keep your hands clean and wash your hands properly
 - ◆ Maintain good ventilation
 - ◆ Emphasize personal hygiene to all staff and students
 - ◆ Improve the air-quality-index with “AP5”
 - ◆ All staff, visitor or outside workers must wear medical mask.
3. Parents/Guardians responsibilities:
 - ◆ Measure the body temperature of children before attending school
 - ◆ To pick up student as fast as possible if individual infection syndromes show up
 - ◆ Please seek for the medical consultation as soon as possible when having respiratory symptoms, and also follow doctor’s recommendation, to take rest at home and does not return to school until recover. Please also inform school general office/nursing station (tel.: 2386 2010/2386 2064) if the student feels sick or admits to hospital.
4. Visiting arrangements: We recommend that, if possible, all parents or guardians suspend visits until our school resume to the normal preventive and control measures.

Yours faithfully,

YUNG Wai Man
Warden
