

CHI YUN SCHOOL
Upper respiratory tract infection in Dormitory

7th May, 2019

Dear Parents/Guardians :

We have reported to the Department of Health because of several girl students who have infected upper respiratory disease lately in dormitory. The doctors from the department of Health have come to our school for the arrangement this afternoon and informed us that our school needs to be under medical surveillance. For the protection of the students and staff's health, the school would continue to strictly implement the intensive prevention measures.

All staff and visitors please maintain the alertness to implement the prevention and control measures of infection. If there is any enquiry, please contact the school nurse on duty via the phone number: 2386 2010.

Yours faithfully,

Yung Wai Man
Warden
